

**O**n **Friday, November 22**, the Lancaster County Community Foundation is hosting their annual, 24-hour Extraordinary Give event to benefit nonprofit organizations in the Lancaster County area. This year, we are proud to be a participating nonprofit.

As the premier health care educator in Lancaster County, Pennsylvania College of Health Sciences is investing in the lives of many students who will in turn make Lancaster County the place they work and call home, and we cannot do it without your continued support. Designating your contribution to the College during the Extraordinary Give will **enrich** the education that we provide to our students, keep tuition costs low and assist in developing the faculty and staff that prepare students for a lifetime of success.

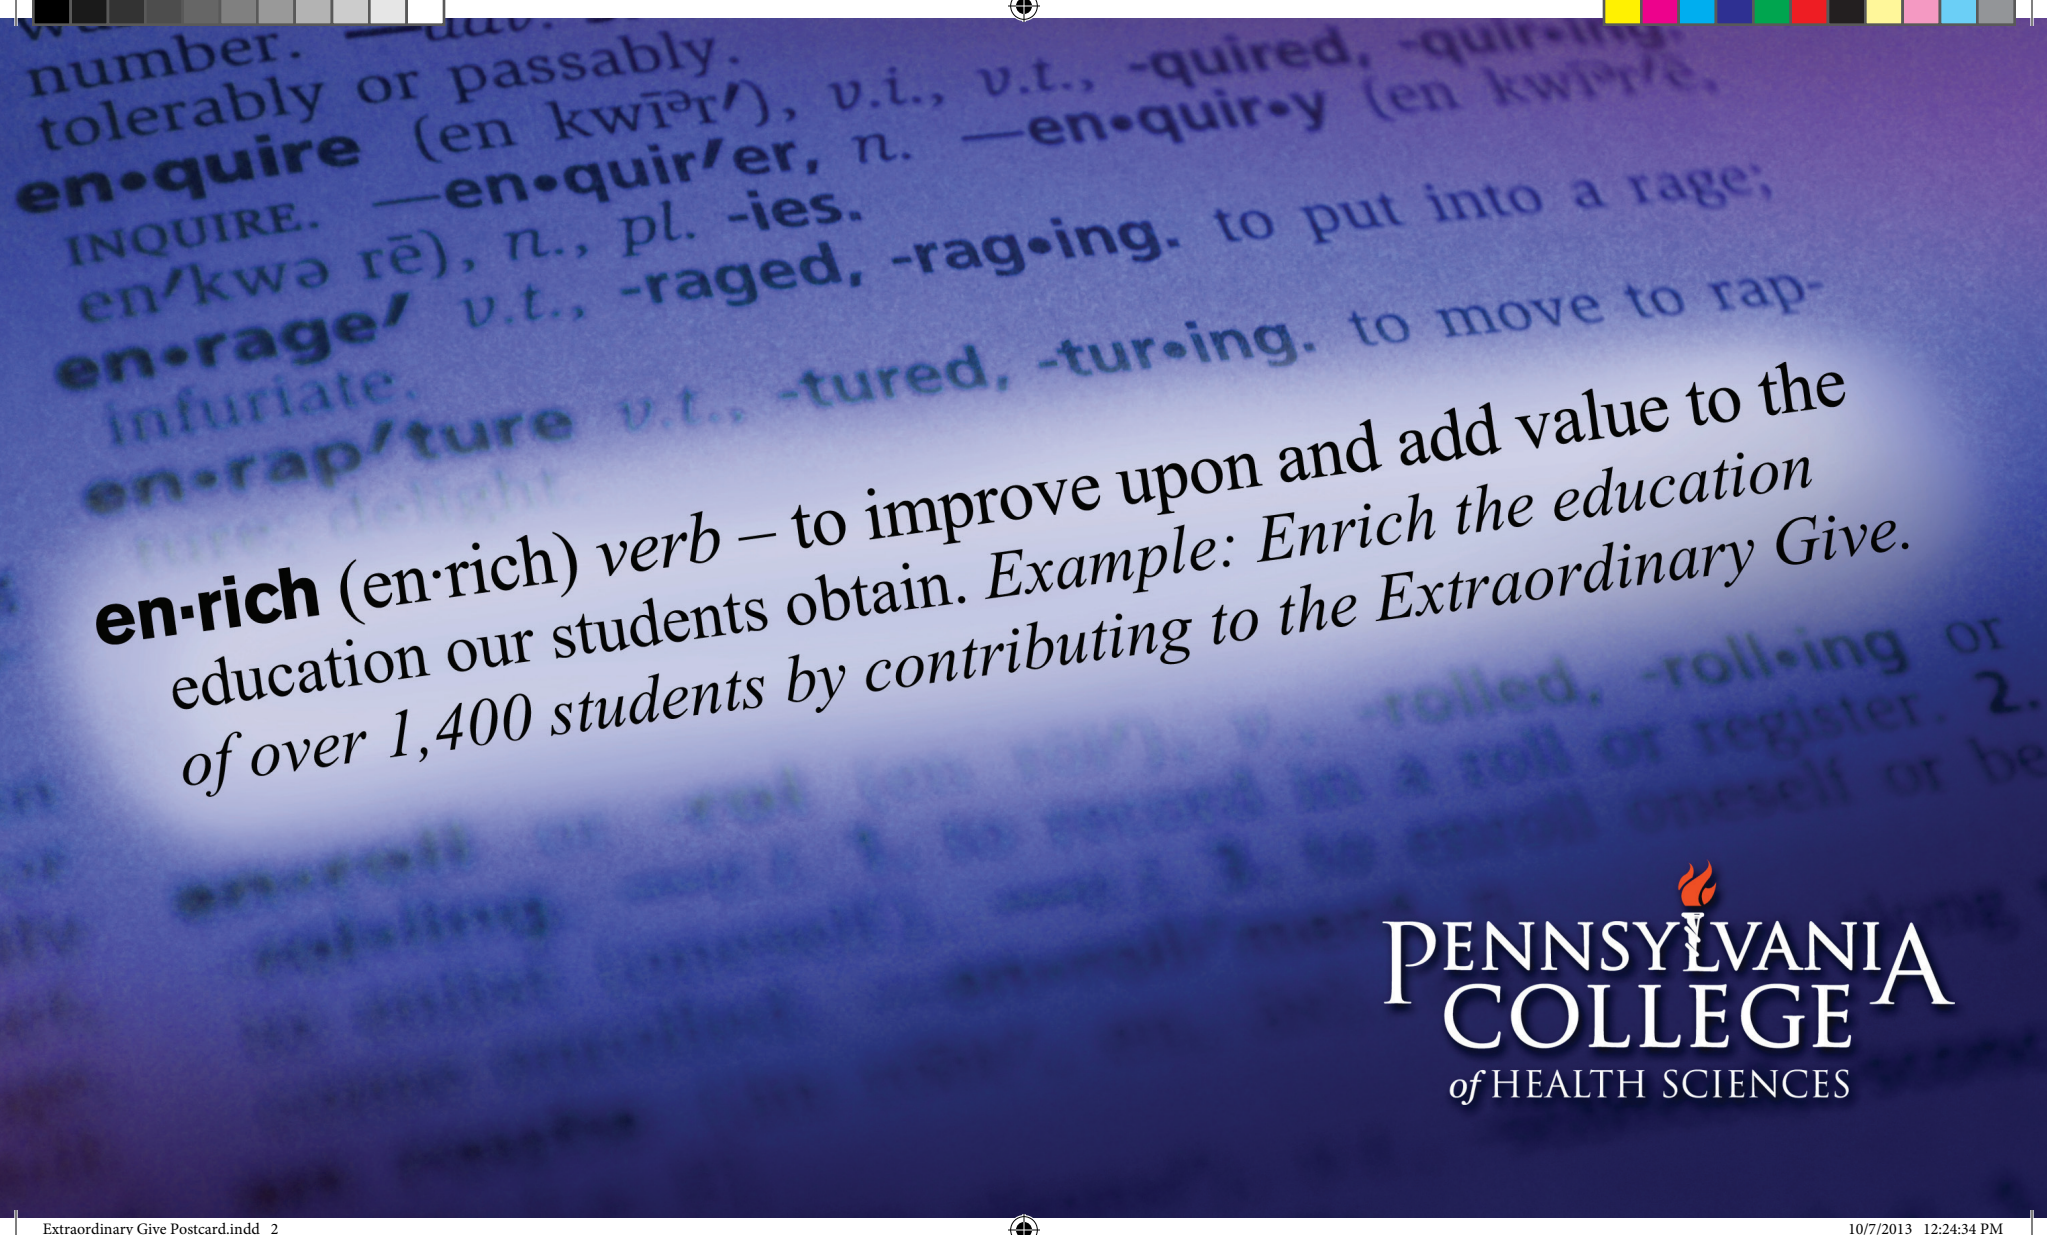

Join others in Lancaster County by having your gift extended through the Lancaster County Community Foundation! **Simply visit [www.pacollege.edu/giving](http://www.pacollege.edu/giving) for more information and instructions on making a donation.**
